We love that American Garlic

Of course we all think of garlic being grown in America. But did you know that 60% of all garlic in restaurants are from China. That is because American garlic is three time the price of Chinese garlic. But there have been many health concerns with produce coming from China. At Aroma Thyme we only buy American garlic. WE guarantee it.

Use the same oils as we do!

Young Living Essential Oils. Learn how to use them on Tuesday, July 13th at 6:30 pm.
